Présentation

A pretty little wooden cabin, set in the middle of a pond in the heart of the Normandy countryside. Ideal for a rejuvenating weekend, alone or in pairs, you can observe the animals, listen to nature, wake up watching the reflections of the water ripple on the walls. A rejuvenation and a disconnection guaranteed, with an access on foot through fields, along the river, on a 5 hectares domain.

The warm atmosphere of the wood, the sober and refined decoration offer a space that is both cosy and respectful of the environment. The cabin is equipped with dry toilets and a sink, for the shower you will have access to the bathroom of the house. A comfortable sofa bed will give you a relaxing view of the pond, you can also sit on the pontoon in front of the French window with the table and chairs at your disposal.
